Compression Bandaging

Rosidal® TCS

Two component compression system

Product benefits

- Rosidal TCS is made up of:
 - soft compression bandage (Rosidal SC) = first layer
 - cohesive compression bandage (Rosidal CC) = second layer
- Two components combined in a handy, ready-for-use set
- Integrated skin protection in the reusable first layer
- Short-stretch cohesive compression layer provides effective therapeutic compression
- Cohesive quality of the bandage allows for extended rebandaging intervals without slippage for up to seven days
- Offers greater comfort at rest which improves patient concordance and encourages mobility and confidence
- Safe-Loc: safe to apply at full stretch and no pressure indicators required, ensuring consistent and accurate application
- Simple and easy to apply
- Thin and supple, allowing good mobility in the ankle joint and shoes can be worn comfortably
- Latex-free
- Extensive clinical evidence

Indications

- For the treatment of lower leg ulcers and concomitant conditions
- For the treatment of chronic oedema

Rosidal® TCS

System components	Size	REF	Shipping units (pcs.)
Component 1: Rosidal SC	10 cm x 3.5 m	26484	1 / 14
Component 2: Rosidal CC	10 cm x 6.0 m		

Rosidal® Sys

Short stretch compression system

Product benefits

- Effective and economical as padding and compression bandages can be reused. (Rosidal soft and Rosidal K)
- Ready-for-use products combined in one handy set
- The system can be worn continuously for up to 7 days (high level of compression pressure is maintained throughout)
- Components: tg Tubular, Rosidal Soft (padding), Rosidal K (short stretch compression), Porofix (adhesive tape), Mollelast haft (cohesive conforming bandage)

Indications

- For the treatment of lower leg ulcers

Rosidal® sys

Rosidal® K

Short stretch bandage

Product benefits

- 100% cotton short stretch bandage
- Resuable; washable up to 50 times
- Safe-Loc: safe to apply at full stretch and no pressure indicators required
- Non-cohesive
- Easy application
- Air-permeable

Indications

- For powerful compression (e.g. in phlebology)
- To immobilise the limbs
- For support and pressure relief in traumatology and sports medicine
- To retain dressings

Rosidal® K

Size	REF	Shipping units (pcs.)
5 m (stretched length), with bandage clips (except for 4 cm), individually packed in a folding box		
4 cm x 5 m	22199	1 / 125
6 cm x 5 m	22200	1 / 108
8 cm x 5 m	22201	1 / 108
10 cm x 5 m	22202	1 / 90
12 cm x 5 m	22203	1 / 54
10 m (stretched length), without bandage clips, individually packed in a folding box		
12 cm x 10 m	22205	1 / 40
10 cm x 10 m	22206	1 / 60

Rosidal® SC

Soft compression bandage

Product benefits

- Helps distribute pressure evenly
- Integrated skin protection layer which provides:
 - Improved comfort and breathability
 - Reduced skin irritation
 - No need for an additional tubular bandage
- Light compression effect
- Reusable: washable up to 50 times
- First layer of Rosidal TCS
- Permeable to air and water vapour

Indications

- Can be used as the first compression layer to protect the skin and to make the bandage less prone to slipping
- For light compression under lymphological or phlebological compression bandages

Rosidal® SC

with bandage clips, individually packed in a folding box

Size	REF	Shipping units (pcs.)
10 cm x 2.5 m	33500	1 / 18
15 cm x 2.5 m	33501	1 / 24
10 cm x 3.5 m	33503	1 / 24

Rosidal® CC

Cohesive compression bandage

Product benefits

- High static stiffness
- Delivers high working, low resting pressure
- Latex-free
- Cohesive on both sides
- Safe-Loc: safe to apply at full stretch and no pressure indicators required
- Simple and easy to apply
- Top layer of Rosidal TCS

Indications

- To immobilise the limbs
- For the retention of multi-layer bandages
- For compression

Rosidal® CC

6 m (stretched length), individually packed in a cardboard box

Size	REF	Shipping units (pcs.)
10 cm x 6 m	33499	1 / 24

Rosidal® soft Foam bandage

Product benefits

- Lengthwise and widthwise elastic
- Ensures even distribution of pressure
- Increases patient comfort (e.g. cushioning of the tibial crest)
- Reduces slippage
- Highly permeable to air and humidity
- Tear-resistant and stretchable
- Reusable: washable up to 50 times
- Maintains its elasticity and cushioning effect even after washing

Indications

- For padding under lymphological and phlebological compression bandages

Rosidal® soft

2.5 m (unstretched length), with bandage clips, individually packed in folding boxes

Thickness	Dimensions	REF	Shipping units (pcs.)
0.3 cm	10 cm x 2.5 m x 0.3 cm	23110	1 / 30

0.4 cm	15 cm x 2.5 m x 0.4 cm	23113	1 / 14

Rosidal® soft

2.0 m unstretched length, with bandage clips, packed in pairs in a folding box

Strength (cm)	Dimensions (cm x m x cm)	REF	Shipping units (pcs.)
0.2 cm	10 cm x 2 m x 0.2 cm	13016	1 / 23

Rosidal® haft

Cohesive short stretch compression bandage

Product benefits

- Delivers high working, low resting pressure
- Stays reliably in place
- Compression force is well tolerated due to the high degree of static stiffness
- High compression is sustained over a longer period
- Cohesive on both sides
- Safe-Loc: safe to apply at full stretch and no pressure indicators required
- Simple and easy to apply

Indications

- For compression of the limbs for phlebological and lymphatic conditions
- For the treatment of oedema
- After sclerotherapy and varicose vein surgery
- For support and pressure relief of the capsular ligament system

Rosidal® haft

5 m (stretched length), individually packed in a cardboard box non-sterile

Width	REF	Shipping units (pcs.)

10 cm x 5 m	31975	1 / 42
12 cm x 5 m	31976	1 / 24

Cellona® Synthetic Undercast Padding

Versatile and protective

Cellona Synthetic Undercast Padding can be used for a number of different applications. In addition to its protective function under plaster of Paris and synthetic casts, it is used as padding for splints and compression bandages.

Flexibility and comfort

The fine, fibrous web enables smooth, spiral application but can also be teased apart where required, preventing bulging, to enhance wearing comfort.

The material (100% polyester fibres) is well suited to be used in narrow areas as it can be tapered by gently stretching it lengthwise.

An adhesive-like effect inherent to the material makes the padding easier to apply and smooth out.

Cellona Synthetic Undercast Padding

Size	REF	Shipping units (pcs.)
5 cm x 2.7 m	34591	6 / 144
7.5 cm x 2.7 m	34592	6 / 72
10 cm x 2.7 m	34593	6 / 48
15 cm x 2.7 m	34594	6 / 72

tg[®] grip

Tubular support bandage

Product benefits

- Supple material with uniform compression effect
- Air-permeable
- Light padding effect
- Application with virtually no creases
- Knitted seamlessly
- Widthwise stretch
- Skin-friendly due to high percentage of cotton
- Washable up to 60°C and sterilisable by steam (134°C)
- Compression can be enhanced with a second layer of material or by using a smaller size

Product composition

- 85% cotton, elastodiene (latex); covered with a polyamide yarn

Indications

- For support and retention with a light compression effect

tg[®] grip

Kompres™ Foam pads & bandages

Product benefits

Kompres

- Can be cut to size individually
- Permeable to air and water vapour

Kompres II

- Can be cut to size individually
- Breathable and non-slip
- Special wavy surface structure
- Micro-massaging effect particularly benefits patients with lymphoedema

Indications

Kompres

- Kompres Foam Rubber Bandage
– for compression in oedema treatment in phlebology and lymphology
- Kompres Foam Rubber Pads
– for support with functional bandages in sports medicine
- Use in combination with other compression products to change local pressure

Compression Stockings and Garments

Simple. Effective. Swiss quality.

VENOSAN® Compression Stockings help to make life easier in many situations. The pressure VENOSAN Compression Stockings exert promotes healthy veins. They can help to prevent venous disease as well as being an important part of the treatment for patients being treated for acute and chronic venous disorders.

The diverse VENOSAN range offers the right product for a wide variety of needs. All VENOSAN Compression Stockings have the following characteristics in common:

Simple.

The VENOSAN range provides a simple guide to help you determine the correct size, compression class and style of compression stocking.

The wear and care instructions included with VENOSAN Compression Stockings are easy to follow which patients appreciate.

Effective.

VENOSAN Compression Stockings are RAL-certified, meaning that they provide effective therapeutic compression. The effective design of VENOSAN Compression Stockings means that for patients, many will experience enhanced treatment success and improved quality of life.

Swiss quality.

Products from Switzerland are known for excellent workmanship and top quality.

Manufactured using high quality materials, such as the original Lycra® and elastane, VENOSAN Compression Stockings offer wearing comfort and durability.

- Varicosis during pregnancy
- After vein surgery

Composition

- 71% TACTEL® polyamide
- 29% elastane

VENOSAN® 5000 THE MAGIC OF SILVER

- Odour-inhibiting
- Anti-static
- Temperature-regulation
- Anti-bacterial

Indications

- CVI (chronic venous insufficiency) 1–2
- After vein surgery
- Mild skin conditions
- Lipoedema stage 1

Composition

- 40% TACTEL® polyamide
- 30% elastane
- 20% cotton
- 10% polyamide/silver (X-Static®)

Product overview

Medical compression stockings and pantyhose.

VENOSAN® 6000 CLASSIC

- Maximum sheerness
- Breathable
- Ease of care

Indications

- CVI (chronic venous insufficiency) 1–2
- Varicose veins
- Varicosis during pregnancy
- After vein surgery

Composition

70% nylon polyamide
30% elastane

VENOSAN® 7000 NATURAL TOUCH

- High stiffness (resistance)
- Skin-friendly
- Temperature regulation

Indications

- CVI (chronic venous insufficiency) 2–3
- Lipoedema stage 2–3
- After vein surgery
- After thrombosis
- PTS (post-thrombotic syndrome)
- Mild lymphoedema
- Marked orthostatic stress

Composition

62% TACTEL® polyamide
26% elastane
8% cotton
4% Lyocell/SeaCell®

VENOSAN® 8000 ULCERFIT SUCCESSFUL THERAPY

- Two-layer stocking system
- Fast and easy to use
- High wearing comfort
- Liner can be worn at night

Indications

- Treatment of venous leg ulcers
- Helps to prevent recurrence of venous leg ulcers

Composition

Overstocking:
62% TACTEL® Polyamide
26% Elastane
8% Cotton
4% Lyocell/SeaCell®

Liner:
90% Polyamide
10% Elastane

VENOSAN® SOFT VENOSAN® PRO VENOSAN® STRONG FLAT KNIT THERAPY

- Flat-knit custom made garments
- Smooth and durable
- Low to high stiffness
- Manufactured to European standards

Indications

- Treatment and management of Chronic Oedema and Lymphoedema

Composition

Polyamide & Elastane
VENOSAN PRO (CCL II)
& VENOSAN STRONG (CCL 4S)
also contains cotton
VENOSAN PRO also contains Latex

VENOSAN® 3000 COTTON

NATURAL LOOK

100% cotton - natural and soft.

- **Natural**
Cotton allows a higher degree of wearer comfort for all those who prefer a natural fibre against the skin, or who are allergic to synthetic fibres. 100% cotton against the skin.
- **Durable**
The construction ensures the compression stocking is durable and hard wearing making it ideal for long-term compression therapy.
- **Easy to don**
The stretchable knitted cotton fabric allows easy donning of the compression stocking.

VENOSAN® 4000

CLIMATE EFFECT

Microfibre - fine and stylish.

■ Climate effect

The air permeable yarns and knitting construction of this stocking allow for moisture to be wicked away from the skin and through the stocking.

■ Fashionably elegant

Wearable in all seasons. It has a contemporary stylish look, with the sheer transparency.

■ Comfortable

The velvety touch of the high tech TACTEL® microfibrils offers outstanding comfort. The microfibrils are many times thinner than a human hair.

■ Made to Measure available

VENOSAN® 5000

THE MAGIC OF SILVER

For ideal temperature regulation.

■ Durable

The innovative yarn combination of silver and cotton make this stocking suitable for active men and women.

■ Regulates temperature

Silver is well known for its excellent heat conductive properties. In combination with the microfibre TACTEL®, silver produces rapid dissipation of skin moisture, helping to ensure optimal wearing comfort.

■ Silver-coated X-Static® fibres

Contains silver-coated X-Static fibre.
No reduction of the properties of silver even after 150 washing cycles.

■ Made to Measure available

NATURAL TOUCH

High stiffness with optimal comfort.

■ High stiffness

Due to the enhanced stiffness the stockings provide a massage effect and are characterised as shaping, opaque compression stockings with high stiffness.

■ Skin-friendly

The composition ensures both high resistance and optimal wearing comfort.

■ Strong natural fibres

Due to the durability of the material these stockings are suitable for people who demand a lot from their stockings at work, in sports and in their leisure time.

■ Made to Measure available

VENOSAN® SILVERLINE

EVERYDAY COMFORT

SILVERLINE® offers long-lasting protection from foot odour and athlete's foot.

X-Static®, the silver fiber, promotes hygiene and anti-microbial properties. Skin remains deodorised and free of bacteria and fungus — particularly effective in protecting against foot odour and athlete's foot. Cool and dry in summer and warm in winter, SILVERLINE® fibres wick moisture away from the skin for comfort in warm weather. X-Static®, the silver fiber, conducts heat in winter to retain warmth. The silver in X-Static® yarns also assists in eliminating static electricity.

Specifically designed

- Enhanced comfort and fit with knitted top band.
- Elimination of bacteria and fungus associated with foot odour.
- Excellent regulator of heat.

Anti-Embolitic Stockings

VENOSAN® AES

THROMBOSIS AND EMBOLISM PREVENTION

The VENOSAN AES range comprises a comprehensive selection of well fitting anti thrombosis stockings.

AES stockings work by ensuring constantly decreasing pressure from the ankle region to the knee or thigh, thereby accelerating venous return for patients in the lying position, and helping to prevent thrombosis as a result.

VENOSAN AES stockings are available in three versions: AD, AGH, AGG.

Properties

- Light and air-permeable to ensure maximum comfort.
- Easy to put on.
- Anatomical shaping and comprehensive choice of size.
- Ensuring constantly decreasing pressure from the ankle to the knee or thigh, thereby accelerating venous return in patients in the supine position and helping to prevent thrombosis.
- Top inspection window for safety.
- Can be washed and reused.
- Colour coding at the toes and top seam allows immediate identification of the size.

ordering and sizing details

ReadyWrap®

Adjustable compression garments

ReadyWrap is an adjustable compression wrap that provides patients and their caregivers an easy-to-use solution to support wound healing and oedema management.

ReadyWrap provides clinically effective compression therapy while supporting patient compliance with its unique alternating strapping system.

Product Benefits

Low-stretch material

Mimics short-stretch bandaging — the gold standard of treatment.

50% overlapping straps

Helps prevent gapping.

Blocked support spine

Helps maintain garment form to support all-day wear.

Color-coded straps

Provides easy step-by-step donning guidance.

Foam padding

Cushioning at elbow and wrist provides comfort and evenly distributes pressure.

Modular design

Garments work effectively on their own or in combination.

TributeWrap™

Self-adjustable foam compression garment

TributeWrap is an adjustable compression garment with foam technology that nestles into the tissue to promote skin health.

It supports easy self-management of lymphoedema and oedema during low activity by comfortably adjusting to your patient's unique shape and lifestyle. TributeWrap helps maintain gains made during therapy, while allowing the flexibility to support further reduction.

Simply slide it on, adjust the straps, and cover with Sleep Sleeve for comfortable evening compression.

Product Benefits

Chevron channeling

Designed based on MLD principles of directing fluid to collateral pathways.

Proven foam technology

Breaks up and softens hardened fibrotic tissue to support skin health.

Adjustable strapping system

Easily conforms for the right, comfortable fit.

Easy-to-pull finger grip

Simple pull function to support self-management.

Powered by Coolcore®

Innovative interior fabric with chemical-free Cooling Power which rapidly wicks away sweat and moisture to regulate body temperature.

Colour

Black exterior exterior
Slate interior interior

Indications

- Mild to severe lymphoedema, stage 1–3
- Chronic oedema (non-blood related)

Additional Compression Garments

Click for Caresia
ordering and sizing details

Caresia™

Off-the-shelf foam bandage liner

Caresia is an off-the-shelf foam bandage liner designed to simplify and enhance compression bandage techniques by replacing the need for traditional padding or under layers. It is to be used during the intensive phase of therapy to simplify the multi-layer bandaging process during the daytime, nighttime, and high or low activity.

Product Benefits

Saves time

Eliminates the underlayers of bandaging. Slide on and apply short-stretch bandaging over top.

Proven foam technology

Breaks up and softens hardened fibrotic tissue to support skin health.

Quick and easy fitting

Only 2–5 measurements needed to select size for each style.

High-stretch fabric

Offers greater range of motion compared to multi-layer bandages.

Colour

Blue

Indications

- Lymphoedema - when used with bandages/other garments
- Oedema (non-blood related) - when used with bandages / other garments

Apply Rosidal K over Caresia to achieve the desired compression profile

ExoAnklet™

Effective foot compression that easily fits in a shoe

ExoAnklet™ is a compression anklet that provides focused therapeutic compression on the foot and ankle for the management of lymphoedema and oedema. This anklet is designed to provide comfortable and effective therapy, while easily fitting into your normal footwear.

Product Benefits

- 1 Provides focused therapeutic 18–26 mmHg compression.
- 2 Works well on its own, or in combination with other compression garments.
- 3 Easily allows for normal footwear with its low-profile design.
- 4 Soft, comfortable design, particularly over the toes and heel.

Indications

- Mild to moderate lymphedema
- Oedema (non-blood related)

Material content

Nylon (polyamide), spandex (elastane)
Not made with natural rubber latex.

Care instructions

- Machine wash
- Do not use bleach or fabric softener
- Do not dry clean
- Lay flat to dry
- Do not iron

ExoSoft™

Off-the-shelf circular knit compression garments

ExoSoft is an off-the shelf circular-knit gradient compression garment designed for self-management during the day or high activity.

Product Benefits

- Excellent breathability
- Soft and smooth
- Lightweight, breathable microfibre fabric helps keep patients cool, dry and comfortable
- Easy for patients to don
- Wide bands help reduce rolling and keep garment in place
- Armsleeve available with silicone top band
- 6-month warranty
- Easy garment care in washer and dryer

Intended Uses

- Helps maintain reduced volume and shape by supporting extremities
- Management of mild to moderate lymphoedema
- Management of mild to severe oedema (non-blood related)

SwellSpots®

Oedema and fibrosis pads

SwellSpots are reusable therapeutic foam pads to incorporate into multi-layer bandaging or garments to provide focal compression to help soften troublesome areas of oedema and fibrosis.

Ideal for difficult areas of oedema, fibrosis, skin folds, misshapened limbs as well as padding and protection.

Product Benefits

Proven foam technology

Breaks up and softens hardened fibrotic tissue to support skin health.

Versatile shapes and sizes

Wide range of off-the-shelf and custom solutions to manage troublesome areas no matter the location.

Channeling

Designed based on MLD principles of directing fluid along lymphatic pathways.

Measuring and ordering information

VENOSAN®

Measuring Guide

When? Where possible, it is recommended to measure in the morning, when legs are rested and swelling is at a minimum.

How? Measurements to be taken using a tape measure (cm only) with the patient standing. For Below knee garments, the patient can be measured when sitting. It is recommended that measurements are taken on a bare leg.

Measuring points

Which measurements are needed

Garment Type	Measurements Needed
AD Below knee	cB, lD

ReadyWrap[®], TributeWrap[™], Caresia[™] Measuring Instructions

Lower Extremity

Circumference points:

- cG** 2 cm below gluteal fold
- cE¹** 5 cm above the knee
- cD** 2-3 cm below popliteal fossa
- cC** widest part of calf
- cB** 2 cm above malleolus
- cY** around instep and heel with foot dorsi-flexed
- cA¹** around the arch/dorsum of the foot
- cA** around base of toes

Lengths:

- IA-Y** heel to base of toes
- ID-B** the length between point cB and point cD
- IG-E¹** the length between point cE¹ (5 cm above the knee) and point cG

Upper Extremity

Circumference points:

- cA** widest width of the palm, just below the metacarpal phalangeal joints
- cC** narrowest point of the wrist
- cE** round the elbow joint and into the crease of the elbow
- cG** top of the arm, just below the axillary crease

Lengths:

- IA-C** the length between point cA and point cC
- IC-G** the length between point cC and point cG
